THE RAILROADS.

Traveling Passenger Agent Samuel Sherman, of the Wheeling & Lake Eric, is arranging for the annual excursion the Wheeling Builders' Exchange, whose destination this year is Niagara leave Wheeling on a special train, Friday, July 20, at 3 p. m., the route being to Cleveland, and thence via the palatial C. & B. liner, "City of Eric," to Buffalo, arriving at the Falls Saturday morning at 9 o'clock. There will be a side trip across Lake Ontario to Toronto and down to the Thousand Islands. There are indications of a very large crowd, the rate being open to the publie, and if Mr. Sherman's efforts for a stop-over at Canton and reception by President McKinley are realized, there is likely to be a crush.

The second Pensylvania excursion to Atlantic City is slated for next Thursday, and Passenger Agent Tomlinson anticipates a very large booking for the

Cut on Oil Rates.

The Canadian Pacific is leading the railroads in the Central Traffic and Western associations a merry dance. It is the only big thorn which continually reminds the officials that the pool millennium is not at hand. The Canadian Pacific officials have been obliging in a few instances, have hinted that they would make concessions, and have stated that they will abide by the rates fixed both in passenger and freight traille. No sooner however is trouble in one direction patched up than it breaks out in another. The Canadian Pacific officials have proved themselves to be very busy people and are so sly in their activity that it involves a great can officials to keep track of them.

The Grand Trunk road receivers are also inclined to follow in the lead of the Canadian Pacific officials, and both rates east of Detroit. Since navigation opened the boats have been hauling oil at a low figure, and these two lines have been shut out of the business They now cut the rate about one-third between Detroit and Toronto, Montreal. and other Canadian and eastern points, and it is coming their way. which is principally affected by this traffic is the Michigan Central, and it is understood its traffics will be rear-

The Canadian Pacific is also working the emigrant business very hard. Emigrants are favoring the Canadian steamship lines this year and coming into the United States at ports distant from New York because of the rigid inspection which they have to undergo there. The Canadian Pacific has been favoring them with rates, and the business has assumed such proportions that the Western lines will make an attempt soon to get a division of the traffic.

LOUISVILLE, Ky., July 15.—Every-thing will, it is expected, be done un-animously at the Republican state convention, which will meet in Liquisville Tuesday afternoon, to nominute a candidate for governor.

Ex-Governor W. O. Bradley will

place in nomination for governor, John W. Yerkes, of Danville, who, it is believed, will be unanimously nominated. Governor Bradley probably will address the convention.

It is the present plan that the plat-

form shall endorse the Philadelphia convention and its nominees and contain only one more plank-denouncing what the Republicans describe as "Goe belism."

BELLAIRE HAPPENINGS.

Matters of Interest in the Metropolis of Belmont County.

Squire Mason, of this city, has just received word of the allowance of a pension for an Aetnaville woman and her child that is remarkable, and amounts in all to a little over \$1,209.

Peter Keyser filed an application and died a few months later. Then his widow and child filed applications. The widow afterwards married again, and the pension, if allowed, would go to the child. All three applications were apchils. All three applications were ap-proved. The man is allowed \$12 until the time of his death, only a few months. The widow gets \$3 during the time of her widowhood, and the child get \$2 from the date of the father's death, and gets her mother's from the time she married the second time. The woman is a widow again, and the \$1,200 comes to her in good time, though she can not control the child's portion of it, as a guardian is appointed;

The sumer dullness is broken here by the steady operation of the three large enameling plants, and Rodefer's glass factory resumes this morning af-ter a shut-down of four weeks, and the sted works goes on again, after a stop of two weeks, and their coal mines also begin work this morning. This is unusual operation at this time of the year, and puts things in rather good shape so far as this city is concerned.

The police Saturday evening run several plain drunks, one of whom amused himself in the park by throwing water on some of his companions, and when told by an officer to stop retorted that he might go to a hotter place than this town. Then he was taken to the cooler to reflect upon the effect of a few extra beers.
